FIGHIS excellent medicinal compound was firs A prepared by Dr. J. W. POLAND, in 1847, and was then employed with great success in expelling humors from the blood; but in 1888 a medical friend who was quite celebrated as a physiclan, especially in the treatment of humors, sur gested some important improvements, which were adopted, and which has made it (so the people say) the very best remedy for all kinds of humors known to "the faculty."

This preparation is composed entirely of regets bles, among which are Sarsaparilla, Yellow Dock, Noble Pine, Maud-ake, and Bloodroot. When the originator lived in New Hampshire, at Unfletown Centre, for the space of thirty or forty miles around, and in Munchester particularly, the Humor Doctor was well known and highly values

for the numerous and wonderful cures which it ef-fected. Though manufactured in large quantities. the supply was frequently exhausted, and purchaers had to wait for more to be made. In that se-gion, some very severe cases of Eyyspelas were treated with,—and they were cured! Eryspelas sores, or carbuncles, - those ugly, painful ulcers were entirely removed wherever this medicin was faithfully used. So it was with Scrofula and Salt-libeum. The Humor Doctor cured them.
It is free from any dangerous drags, is pleasant to the taste, sufe, yet supe and effective in its action.
